If—

BY RUDYARD KIPLING

If you can keep your head when all about you
Are losing theirs and blaming it on you,
If you can trust yourself when all men doubt you,
But make allowance for their doubting too;
If you can wait and not be tired by waiting,
Or being lied about, don't deal in lies,
Or being hated, don't give way to hating,
And yet don't look too good, nor talk too wise:

If you can dream—and not make dreams your master;
If you can think—and not make thoughts your aim;
If you can meet with Triumph and Disaster
And treat those two impostors just the same;
If you can bear to hear the truth you've spoken
Twisted by knaves to make a trap for fools,
Or watch the things you gave your life to, broken,
And stoop and build 'em up with worn-out tools:

If you can make one heap of all your winnings
And risk it on one turn of pitch-and-toss,
And lose, and start again at your beginnings
And never breathe a word about your loss;
If you can force your heart and nerve and sinew
To serve your turn long after they are gone,
And so hold on when there is nothing in you
Except the Will which says to them: 'Hold on!'

If you can talk with crowds and keep your virtue,
Or walk with Kings—nor lose the common touch,
If neither foes nor loving friends can hurt you,
If all men count with you, but none too much;
If you can fill the unforgiving minute
With sixty seconds' worth of distance run,
Yours is the Earth and everything that's in it,
And—which is more—you'll be a Man, my son!

OUR VISION

A RICH ACADEMIC PROGRAMME

A curriculum based on the best research evidence as well as successful teaching and learning strategies for children of diverse backgrounds and learning needs.

A COMMUNITY SCHOOL

A vibrant centre for educational, recreational, cultural and social programmes for children and adults in an international community which draws upon and contributes to the vitality through an innovative and focused fun-filled curriculum.

A UNIQUE PROFESSIONAL DEVELOPMENT FOCUS

A culture of continuous professional growth for all staff, Fairview functions as a 'hub' for educators throughout the region, regularly engaging teachers in a wide range of learning opportunities that promote ongoing professional growth.

OUR MISSION

FAIRVIEW INTERNATIONAL SCHOOL aims to be a vibrant centre for educational, personal and social growth in the world, providing a rich academic curriculum for children in the local and international community.

Through the use of best practices in teaching and learning, Fairview International School will educate, motivate and inspire students in an educational environment that stimulates learning in a nurturing social and emotional climate.

Fairview International School is not only committed to raising the standards of education in its schools but in the region through continuous training and development in the best possible teaching pedagogies.

EDITORIAL

TOGETHER WE CAN MAKE A DIFFERENCE, IS OUR THEME THIS YEAR, AND YOU WILL SEE THAT DIFFERENCE IN THIS EDITION OF INNERVIEW.

It was a journey of learning for most of us, in putting out this edition of Innerview. A journey that has had its share of pleasant and not so pleasant memories. Regardless, a heartfelt thanks to each and every one of you who had a hand in putting this magazine together.

We hope you enjoy the read, the layouts and the magazine itself as a page in your diary of memories. With that, we should all say a special thank you to our members who worked above the call of duty to give you this read, this memory.

Together we can make a difference, has been true indeed for Fairview International School. With the help of its dedicated army of teachers and guidance from the top management, the school has made strides in all aspects of education.

This year, we witnessed Fairview Ipoh join the list of the International Baccalaureate (IB) World Schools, providing Fairview with a “high five”, as we now have five IB world schools, namely the ones in Penang, Kuala Lumpur, Johor and Subang Jaya.

This is no mean achievement, considering there are only 4,655 IB World Schools in the world today. There were other major breakthrough for Fairview, from the setting up to the University College Fairview (UCF), a global first in the music medals programme and many more.

Enough said. Let’s check out the brand new Innerview **TOGETHER.**

ON THE COVER

The design cover depicts multiculturalism spirit embraced at Fairview International School. The five children depicts the five campuses of the school, who side by side strive to make a difference everyday by working together.

ABOUT FAIRVIEW

FORMED IN 1978, FAIRVIEW INTERNATIONAL SCHOOL (FIS) IS THE COUNTRY’S LARGEST INTERNATIONAL BACCALAUREATE (IB) EDUCATION PROVIDER IN MALAYSIA.

Our network of 5 IB world schools stretches from Kuala Lumpur to Johor in the South and as far as Penang in the North of Peninsular Malaysia.

The Kuala Lumpur campus offers the IB programmes from the Primary Years Programme (PYP), Middle Years Programme (MYP) and the Diploma Programme (DP) under one roof.

University College Fairview (UCF) is the first IB certified educational institution in South East Asia that is allowed to train IB teachers in the standards set by the Geneva based International Baccalaureate Organisation (IBO).

MESSAGE FROM THE CHAIRMAN

MR DANIEL CHIAN NGOOK FOR
Chairman
Council of Governors

IT HAS BEEN A VERY BUSY YEAR FOR FAIRVIEW INTERNATIONAL SCHOOL, MOVING SO RAPIDLY THAT WE ALMOST FORGOT THAT THIS SCHOOL IS NOW 39 YEARS OLD.

This has been a historic year for Fairview, being the first among equals in so many fronts. For starters, the University College Fairview (UCF) was born, offering post graduate courses for those intending to pursue a career as an International Baccalaureate teacher.

We also now have the distinction of having five IB world schools in Malaysia, which means all our schools, namely in Kuala Lumpur, Ipoh, Subang Jaya, Penang and Johor are IB world schools.

Not bad indeed, for a school which has had its origins as a cabin school with no permanent place to call home along Jalan Ampang. We now own all our campus premises, with all our five schools listed among the world's top 4,655 elite IB world schools list.

////////////////////////////////////

This is also a year, where we found the time to reconnect with history, bringing back the 30 year old NCUK foundation year programme, which allows scholars who excels to gain access to as many as twelve universities in the United Kingdom.

Not many of us might be old enough to remember that the NCUK foundation programme was initially set up in 1987 to deliver a split degree programme for Malaysian government-sponsored students.

Over a ten year period, some 6,000 students progressed through this programme, which help aid the Malaysian economy in the fields of engineering, science and business.

////////////////////////////////////

Our IBDP test scores were once again above the world average. Our four year average scores stood at 36.4 points which is equivalent to 4A* UCAS Tariff.

Together we have made a difference, by being the first amongst equals , and together we can make a difference as we march forward with our heads high, our spirits burning to usher this great school's 40th birthday.

MESSAGE FROM DATO' SHAM

**PROF. EMERITUS DATO'
DR. MOHD SHAM**

Chairman
Board of Directors

IT IS MY PLEASURE TO PEN A FEW LINES IN THIS YEAR'S EDITION OF THE INNERVIEW MAGAZINE. THIS YEAR SAW A FLURRY OF ACTIVITIES AT FAIRVIEW INTERNATIONAL SCHOOL.

Our students have excelled on the global stage, doing very well in the World Scholars Cup, as well as breaking fresh ground in the field of music education, via the Associated Board of the Royal Schools of Music sanctioned music medals programme.

Teacher education has also been a top priority for us. With the setting up of University College Fairview, our teachers will now be able to do their post graduate studies in the field of teaching, with the standards being set by the International Baccalaureate Organisation.

As we move on towards our forty years celebration, despite the soft economy, I am bullish and confident enough to know, that for Fairview, we are still marching towards sustainable growth helped by the support of the students, parents, teachers in the spirit that together we indeed can make a difference.

////////////////////////////////////

MESSAGE FROM THE PRINCIPAL

DR. VINCENT CHIAN
Principal
Kuala Lumpur Campus

“LIFE IS A JOURNEY,
NOT A DESTINATION”,
SAID RALPH WALDO EMERSON

Some 39 years ago we began, a small humble group of less than a hundred students and teachers. Today with 5 campuses, 3000 students, 10 IB programmes and 400 teachers, Fairview has transformed itself from a small community school to an Educational Institution. Fairview did not start with a multimillion dollar grant or fancy premises. Through the years it was through the perseverance, dedication and passion of Fairview leadership that made the school one of the most respected Educational Institutions in South East Asia.

Our success is drawn not from the size of our campuses but rather from the achievements of our students. Over the last year we have had students win international film awards, six year olds holding their own art exhibition, Karate champions, National Polo players,

Student activists and many more, feature in the pages of this edition of Innerview. Among our many academic achievements, our DP programme holding its class average of 36.4 points over 4 years is particularly outstanding, so are our MYP e assessment results that place us at the top 30% of schools in the world!

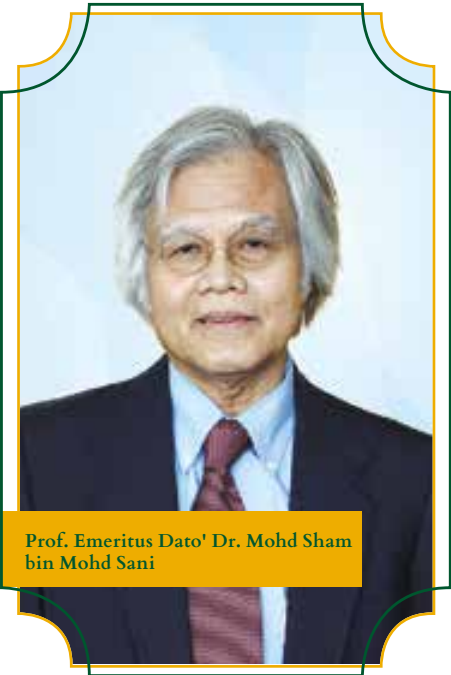

This publication is a celebration of the amazing potential of humanity. To care for one another, take action on our beliefs and achieve great things. In its pages we recognise the many instances of amazing effort by our students, teachers and community all on our own journey to discover what this world has in store for us.

Fairview chosen to offer Music Medals

FAIRVIEW International School has been chosen as the first institution outside the United Kingdom to be able to participate in the Music Medal programme by the Associated Board of the Royal Schools of Music (ABRSM).

It is the world's leading provider of music exams, which is also the UK's largest music education body.

Music Medals are accredited assessments and tracking resources from ABRSM for those taught in groups.

ABRSM offers assessments to more than 630,000 candidates in 93 countries every year, and after a rigorous testing process of Fairview's existing music programme, ABRSM had decided that Fairview will be the first school outside the UK to be able to offer the Music Medals platform to its students.

"This is an honour to both Fairview and Malaysia, because Fairview is the first school outside the UK to be given this honour, while Malaysia is the first country in the world, outside the UK where this programme will be offered," said Fairview Global Head of Arts Kirstin Oliver.

Music and Instrument is a mandatory subject in Fairview just like Chinese Language.

Oliver said other schools in Malaysia and around the world were also tested by ABRSM.

"Fairview is the only school, which rose up to the expectations of ABRSM," said Oliver.

This was disclosed during the visit of ABRSM's executive director Jeremy Phillips to the school last week.

Oliver showing the inner workings of a flute to children.

THE STAR 23 MARCH 2017

20 Higher Education

Take the IBDP route

EVERY year, millions of high school graduates aged 17 to 18 would have to make a decision on what they are going to do for the next 40 years of their life.

Sadly, the common answer is "I don't know, I just don't know."

With immense pressure placed on graduates to "be sure" of their career pathway, many make rash and often poorly thought-out decisions based on notions such as "the safer route", "my parents want me to be..." and "my brother did this so I could do the same".

Many have overlooked the point of education that is not only to prepare students for a single job or profession but rather to equip them for the real world.

In our competitive world, if we are always rushing towards the faster route, do we lose sight of what we are running towards?

Have we lost sight of the purpose of education?

The common dilemma at this stage is deciding on a pre-university course, from the traditional A-Level to the quicker Foundation programmes and rigorous International Baccalaureate (IB) Diploma Programme (DP).

According to a report published by the Higher Education Statistics Agency (HESA), IBDP students have a 57% greater likelihood of attending one of the top 20 universities in the United Kingdom compared to students who undertook the traditional A-Level route.

Furthermore, they are more likely to achieve first class honours, earn a higher salary after graduation and pursue further study than their A-Level counterparts.

In the United States, *Forbes* magazine published a report that confirmed a higher acceptance rate for IBDP students compared to those from other pre-university programmes when applying to top universities like Berkeley, Harvard, Columbia and Stanford.

The IBDP is highly regarded in top universities across Europe, Canada and Australia.

A tariff published by UCAS in 2017 equates a score of 34 in A-Level with a score of 28 points in IBDP, below the world IBDP average of 36 points.

Moreover, a score of 36 points in IBDP (about 236 UCAS points) is higher than an A-Level score of 4A* (234 UCAS points).

IBDP is internationally regarded as an excellent pre-university programme but it comes with a hefty price.

Pursuing IBDP in Malaysia can set parents back by up to RM150,000 over two years.

Good quality education can be expensive but when the opportunity arises, students are highly encouraged to seize it.

Fairview International School has run the IBDP programme at its KL campus for over six years and is the first and largest IB network of schools in the country.

Since 2013, as part of a corporate social responsibility effort, over RM2mil has been dispensed on scholarships to ensure that the IBDP is accessible to deserving students.

With over 20 scholarships provided each year, Fairview is the largest private IBDP scholarship programme in the country.

Boosting some of the most experienced lecturers, examiners and teacher trainers in the industry, Fairview's IBDP cohort averages have been at 36.5 points out of 40 in 2016, 36.6 in 2013 and 37.3 in 2014.

The IBDP programme in Fairview International School RE commences in August.

Students are encouraged to read more while scholarships are still available.

For more information, visit www.fairview.edu.my or call 03-4342 0888.

Fairview International School is the first and largest IB network of schools in the country.

EVENTS

Events highlight the happenings in the school, as seen through the eyes of a growing child.

If you have the opportunity to view the popular 1990s series the 'Wonder Years', then our events will take you down memory, on how a child views his/her surroundings and the events

that take place. The concept comes from us, the adults, but the planning and the participants are from the students of Fairview themselves.

These event change the lines of the children by giving them a hands on experience in areas such as planning, organising and executing.

Deepavali

CELEBRATED BY HINDUS ACROSS THE WORLD TO MARK THE TRIUMPH OF GOOD OVER EVIL AND LIGHT OVER DARKNESS.

1

2

3

4

1. Ace Mode Kolam.
2. The Ramayana version of Beauty and The Beast.
3. Murukku, a savoury, crunchy Indian snack.

4. Awarding ceremony with our PYP students lead by Miss Odaia and Miss Kristine from Johor campus.
5. Presenting the DP march.

6. Choir members singing their hearts out.
7. A play featuring the teamwork between 'Earth People' and 'The Clones' to defeat the Zircon troops.
8. Celebrating Fairview Ipoh as the first authorised IB world school in Perak.
9. We are courageous!
10. Our zookeepers and the safari guides.
11. Superb dance by our juniors.
12. The Trumpet performance.
13. Taichi Takahashi from Grade 7, playing the role of Maui.
14. The villains!

EXPEDITION

If Bob Marley made his name through the Exodus Song, then it's safe to say, what makes Fairview International stand out as a school which helps build and shape the next generation, is its highly regarded and acclaimed expeditions.

An expedition is not merely travelling to another country. Each destination is carefully selected and chosen by the school, because the aim of the expedition is not the amount of time

taken to travel from one point to another, it is the journey of a lifetime. A journey that changes a child's perception, to know and understand that, we as humans come in all size and shapes, some rich and some poor, but underneath it all, we're the same.

This takes place via out of the classroom experience, which the expedition is famous for. With this in mind, it is Fairview International School's great pleasure to present our expeditions.

Lake Toba, Indonesia

Grade 7 | 31 Oct ~ 4 Nov 2016
Participants: 85 students

1

2

3

1. We are balanced learners too!
2. Hope we can taste the coffee that we have planted.
3. The large bonfire set up by the rangers in the camp.

Ho Chi Minh, Vietnam

Grade 7 | 31 Oct ~ 4 Nov 2016
Participants: 83 students

1

1. Group photo in front of Notre Dame Cathedral Basilica of Saigon.
2. Student trying out handmade craft.
3. Activity with young children in Maison Chance.

2

3

Siem Reap, Cambodia

Grade 8 | 31 Oct ~ 4 Nov 2016
Participants: 84 students

1

1. A whole new experience of planting rice first hand.
2. Visited silk factory.
3. We couldn't wait, we were too hungry!

2

3

Bali, Indonesia

Grade 8 | 31 Oct ~ 4 Nov 2016
Participants: 81 students

1

1. Gunung Kawi transformed into a paddy plantation.
2. Rocks and cliffs are made into a beautiful formation.
3. Create our handmade souvenir to bring back home.

2

3

Chiang Mai, Thailand

Grade 9 | 31 Oct ~ 4 Nov 2016
Participants: 92 students

1

1. Doi Inthanon National Park.
2. A competition to paint our own oiled umbrella.
3. Feeding corn to elephants.

2

3

Yogyakarta, Indonesia

Grade 9 | 30 Oct ~ 3 Nov 2016
Participants: 82 students

1

2

3

1. Teaching experience at a local village school.
2. Traditional dancing 'class' in session.
3. Cycling around Borobudur Village.

Bali, Indonesia

Grade 10 & 11 | 1 ~ 4 Nov 2016
Participants: 12 students

1

1. Aiding each other out.
2. Group tour at Besakih Temple.
3. Visiting the Water Blow Beach.

2

3

Taipei, Taiwan

Grade 10 | 31 Oct ~ 4 Nov 2016
Participants: 93 students

1

2

3

1. Observing the nature at Guandu Nature Park.
2. Making pineapple tarts.
3. Varieties of rock formation.

Xi' An, China

Grade 10 | 31 Oct ~ 5 Nov 2016
Participants: 73 students

1. Tried local delicacies along the Muslim Street in China.
2. Terracota army for protecting Emperor Qin in the after life.
3. DIY Biang Biang Noodles.
4. City Wall of Xi' An.

Beijing, China

Grade 11 | 30 Oct ~ 4 Nov 2016
Participants: 140 students

1. The chef taught us how to insert the filling into the flattened dough.
2. Visiting the well preserved Royal Park at the Summer Palace.
3. Chinese calligraphy.
4. Vegetable fillings for the dumplings.

Singapore

Grade 6 | 2 ~ 4 May 2017 & 4 ~ 6 May 2017
Participants: 181 students

1. Students analysing how the Super Trees help transform and conserve energy at 'Gardens by the Bay'.
2. Student trying to crack a safe.
3. Experiencing typhoon at the Science Centre.

Ho Chi Minh, Vietnam

Grade 7 & 10 | 24 ~ 28 Apr 2017
Participants: 98 students

1. Group picture with army tank as background.
2. Children arm wrestling.
3. Reviewing history.

Lake Toba, Indonesia

Grade 7 | 24 ~ 28 Apr 2017
Participants: 76 students

1

1. Malaysian-Indonesian fusion cheerleading.
2. This is how we do the Batak Dance.
3. Teamwork leads to a big bang.

2

3

Siem Reap, Cambodia

Grade 8 | 24 ~ 28 Apr 2017
Participants: 83 students

1

1. Discussing about the design at Le Artisans.
2. Time to go exploring.
3. Boat ride, ahoy!

2

3

Bali, Indonesia

Grade 8 | 24 ~ 28 Apr 2017
Participants: 82 students

1. Outdoor sketching competition at Pura Tanah Lot.
2. Walking through the paddy lane.
3. Service and action in mangrove arboretum.

1

2

3

Chiang Mai, Thailand

Grade 9 | 24 ~ 26 Apr 2017
Participants: 80 students

1

1. Help! The 3D alligator looks almost real, it's scary!
2. Sugar cane for the elephant at Maetaman Elephant Camp.
3. Learning about the traditions and cultures of Long Neck Village.

2

3

Surabaya, Indonesia

Grade 9 | 23 ~ 27 Apr 2017
Participants: 85 students

1

3

2

4

1. Cycling together.
2. Students in action planting with hydroponic growing system.
3. A student observing a calf at Kampung Sapi.
4. Students at Yayasan Pembinaan Anak Cacat.

Xi'an, China

Grade 10 | 24~29 Apr 2017
Participants: 68 students

2

1

3

1. Chinese opera actors.
2. Sifu in action!
3. Even our teachers practised for the ceremony.

Wuhan, China

Grade 10 | 23 ~ 28 Apr 2017 & 24 ~ 29 Apr 2017
Participants: 99 students

1. Students demonstrating the latest innovation to the Head of Product Management.
2. Fairview students sharing ATL skills while making the poster.
3. Knowledge is beyond one's nationality.
4. Exploring the 'Smart House' technology.

1

2

3

4

Ho Chi Minh, Vietnam

DP | 13 ~ 17 Apr 2017
Participants: 26 students

1

2

3

1. Team planning at the World's Scholar Cup.
2. Harlin and Ariez at the entrance of the tunnel.
3. Learning calligraphy is not as easy as it looks.

CELEBRATION OF LEARNING

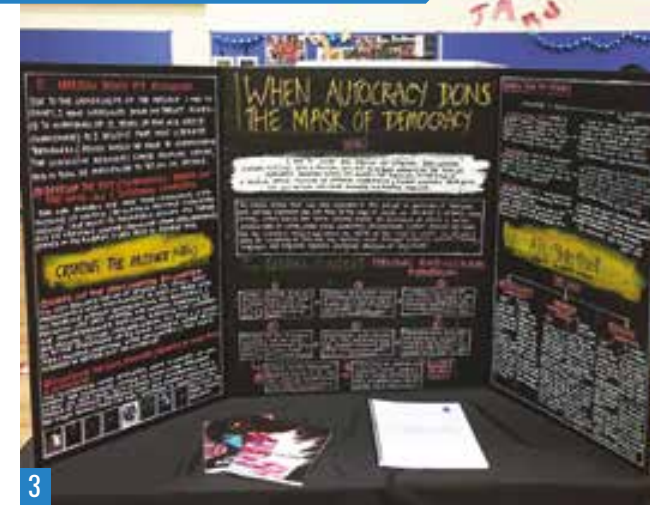

Celebration of Learning (COL) is perhaps best described by author Jason Reynolds in the critically acclaimed best seller 'When I was the Greatest'.

In essence, Celebration of Learning provides students with an opportunity, to hear a voice that speaks to their own generation, on what matters the most, on what is relevant in their times.

It is the voice of "My Generation", by the current generation for both the young and the old to reflect on what was learned, and how it was learned.

Here are the Celebration of Learning, of our students, some of which could be your own children, a neighbour's child, a friend, or just a nameless face.

Language & Literature: Mega Celebration of Learning

To make their presentation more captivating to the audiences, our students came up with colourful posters, 3D models, slides, and mini games. Some of them even took the extra step by dressing up as characters from *Through the Looking Glass*. Guided by their teachers, our students were able to share their most interesting findings and ways they would implement them in their real life.

As a part of their learning process in Language and Literature, our MYP students ended their Quarter 3 with a grand Celebration of Learning. All of our homeroom students from Grade 7 to 10 presented their understanding of their respective units in the form of reflective presentations. Conceptual discussions were done based on the field of journalism and various films such as *Through the Looking Glass*, *Jaws*, and the *Hunger Games*.

1. Here's to the end of our Quarter 3.
2. Check out our COL booth!
3. A thorough research done by one of our students.
4. Utilizing Legos to recreate scenes from a book.
5. Students explaining their findings to a teacher.
6. Our students presenting their L&L learning.

The End Is Just The Beginning

Happy vibes filled in the air as parents were able to join their children to celebrate the completion of their Unit of Inquiry. Their parents were impressed by their children's work and their

learning ability. Not only that, but they have also proven that they are capable of completing the projects at hand during entire of the unit. Work samples, which vary across most subject areas, were

selected by our students prior to the exhibition. At the end of the day, their parents were also exposed into how different subject areas work together through important ideas, concepts and knowledge.

1. Admiring the crafts created by Grade 2's Tiinessh and his group.
2. Students explaining the complexity of their work.
3. Parents trying out quizzes created by the students.
4. Parent listening attentively to the student's presentation using her iPad.
5. That's the way to do it! Students showcasing their skills in using the GarageBand app.

Lean On

1. Parents admiring their child's work.
2. A student explaining the mission and vision of their NPO.
3. Students explaining their 3D bar graph to a parent.

The Celebration of Learning was a student-led event, where students presented what they had learned. This event gave an opportunity for students to develop their presentation and polish their communication skills, as well as report on their assessments independently.

Along with the Celebration of Learning on Friday, 9th June 2017, a mini math exhibition was also held where students zeroed in on some of the real life applications of mathematics that is used in everyday life, such as calculating interest rate. The students also discussed their portfolio with their parents. The parents were encouraged to pose questions to their children, so they could measure how far their children had progressed.

This calls for a celebration!

1

Our students are frequently exposed to Celebration of Learning since their early years in Fairview. Celebration of Learning is basically a platform where our students from reception up to Grade 6 have the opportunity to present the knowledge that they have acquired during their academic year. This includes presenting their IB Learner profile, which endorse students to be open-minded, caring, knowledgeable,

3

and principled alongside other good qualities. The celebration wouldn't be complete without the presence of parents. They were the next group of people aside from our proud students and teachers who were having a good time during the event.

4

1. Excursion to the McDonalds - students are enjoying themselves after the kitchen visit.
2. Students are showing their posters on saving water.
3. Presenting cards to our moms.
4. A Mother's day card, just for mom.
5. Group singing - Wheels on The Bus.

2

5

Reflect and Learn

Celebration of Learning aims to share information between teachers, students and parents. It also promotes and encourages students to take ownership of their learning. Students have the chance to reflect on their learning, setting goals and celebrating their accomplishments throughout the unit of inquiry. They would then take responsibility for their learning by sharing the process with their parents. With guidance and support from teachers, our students select an artifact that represents the growth and process he/she made. Our students enjoyed showing their parents the progress they have made, not only related to academic, but also related to the Learner Profile attributes.

1

4

2

3

1. As courageous learners, our students presented their work to the parents.
2. We are all active learners.
3. Student presented his work to his proud mom.
4. Tell me, I forget; Teach me, I remember; Involve me, I learn.
5. Mom, this is what I learnt in the Unit of Inquiry.

5

GRADE 6 EXHIBITION & GRADE 11 PERSONAL PROJECTS

“The Paper Chase”, which won John Houseman an Oscar in 1974 for best supporting actor in a motion picture best reflect the coming of age of a student. To be able to put into practical use, and present what one has learned in a class room environment. This best reflects what the Grade 6 exhibitions and Grade 11 personal projects are all about.

For the sixth graders, this is their coming of age into the eye opener Middle Years Programme. While for the eleventh graders, the projects displays their readiness to step into a brand new world and the exposures that comes by being in an Ivy League university.

Scientific Advancement

As they bid goodbye to their PYP years to embark on their upcoming MYP journey, our Grade 6 students recently took part in their final PYP Exhibition. They were separated into groups and assigned to a topic, encouraging them to conduct a thorough research. Since this year's theme focuses on Scientific Advancement, our students highlighted several topics such as to robotics, space technology, sports and also culinary

techniques. They have also studied the effect of these advancements on the environment and the future.

It was obvious that their exhibition was a success since our students presented their findings in the most creative ways. Dioramas, colourful posters and imaginative were all over the venue. Overall, it was an amazing experience for both our students and their teachers.

1. Finally, MYP here we come!
2. Our flute players showing off their skills.
3. Check out our science project.
4. Students rejoice after a hard day work.
5. The solo violinist.
6. Wooing the crowd with their work.

During the past nine months, our Grade 11 students had poured their heart and soul in making their personal project a success. Before ending their MYP studies, the students spent the entire period investigating a personal interest and gathered up their initiatives, tenacity and skills in order to create a meaningful project. Aside from that, they also managed to juggle along a 3,500 word report. Upon completion of their projects, 83 of our Grade 11 students had the chance to showcase their final MYP projects to their family and friends.

Blood, Sweat and Tears

1. A 'Paint Me!' booth.
2. Our student presenting her 3D architectural model.
3. Learning more about Alzheimer's disease.
4. Impressed guests.
5. Sharing thoughts with classmates.
6. Student explaining his project through technology.

"Alone we can do so little, together we can do so much"

1

"Alone we can do so little; together we can do so much," said Helen Keller. The teamwork and immense amount of determination between our Grade 6 students were absolutely visible in order to achieve their common goal. The PYP exhibition tested our students' intellectual courage and critical thinking skills in many different ways. In order to present the result of the enquiries, they were involved in various processes such as designing the interactive

displays to drawings and building 3D models from mass interviewing. The knowledge gained during their PYP years empowered them to investigate plenty of scientific advancements. Though the preparation process were hectic, our students managed to pull through. Completing the exhibition had strengthened the students' skills and allowed them to demonstrate their newly equipped knowledge and characteristics.

2

1. Adam explaining to his parents on the differences between herbal medicine and laboratory medicine.
2. Our visitor from Uplands International School listening attentively to Lih Zhe's explanation on biogenetics in plants.
3. Alvin demonstrating the transformation of energy in a solar panel.

3

1. Bakshind is presenting on her personal project - Sikhism and Misconceptions about it.
2. Sathita is seen presenting her work-organic plants.
3. Grade 11 students are ending their play with a mini dance.

4

5

Space Traveller

6

Our Grade 11 students presented their long awaited project with a short play. The main character of the play, travels through different space and time by spinning a needle. Upon the arrival of the character at a particular 'location', another student will make an entrance and briefly bring his/her personal project to attention of the audience. Our students did a clever approach of linking their individual projects to the particular time period

where the character would end up. To give the audience a clear picture, our Grade 11 students had set up several booths to exhibit all of their projects together. The range of the projects was wide as it covered different subjects including medicine, technology, food, the arts, fashion, and religion. Parents were delighted and impressed with the results. Overall, our Grade 11 students had done a marvellous job!

Here comes the PYP exhibition!

Finally, the time had come! Our Grade 6 students showcased everything that they had learned throughout their PYP years. During the beginning of the fourth quarter, our students decided on the things they were interested in exploring for their Unit 6's central idea. The idea mainly revolves around the impact of scientific advancements on the environment and people's lives. Based on the given inquiry cycle, they created their own ideas. The exhibition is where our PYP 'seniors' had the chance to shine through their projects.

1. The grade 6 students receiving their certificate with their teachers, Ms Nava and Ms Odaia.
2. Students collecting different perspectives on scientific advancement.
3. Ms Diya mentoring the grade 6 students.
4. Xin Shen presents their group's exhibition on Robotic Technology to the lower year students.
5. Kavinraj raised awareness about the pollution.
6. Sherman is the busiest student during the exhibition.
7. Kavinraj explaining his findings to the group of lower MYP students.
8. Shawn proudly presents his project.
9. Sherman is entertaining his visitors with his findings.

Knowledge is Power

In order to obtain the long awaited MYP certificate, our senior MYP students were required to produce an extended research based on their individual interests. The Personal Project provides an opportunity for students to demonstrate the knowledge that they gained during the past few years.

Luck was on their side as 11 of our students successfully passed all of the general requirements which allowed them to further their studies. It was no surprise since the completion of their Personal Project is a clear indicator of their commitment and understanding.

An Eye on the Climate

Our annual Grade 6 PYP Exhibition was recently held on the 9th and 10th of June 2017. The access exhibition was linked to the student's academic central idea, on how scientific advancements impact people's lives and the environment. Our grade six students, set up nine booths, with each booth tackling a topic related to the central idea. Our students, set up posters with creative model designs as well as

innovative creations to project on how technology can make a lasting impact by rectifying the issues that we face today. Some of the inspiring displays were that of a water treatment filtration machine to combat pollution. To sum it up, the exhibition was a success and helped in creating awareness to the audience on the challenges faced by the environment.

Process of Conducting a Personal Project

The personal project is a seven-month project for our Grade 11 students. The project helps students understand the subjects they learned during the said period. The Personal Project encouraged students to practice and strengthen their ATL skills, connecting classroom-learning engagements with personal experience. Students were assigned a supervisor to guide and offer support throughout the

seven-month period. There were three elements to the Personal Project which students had to comply with process journal, a product and a report. At the end of process, the students showed off their work through an exhibition.

1. Wayne (Grade 6) from the Security group taking stage and explaining to his junior peers on the importance of security within our communities today.
2. Mandy (Grade 6) from the robotic technology group showcasing her team's amazing hydraulic robotic arm model, to an interested younger grade 4 student.
3. Rina (Grade 6) from the Galaxy group explaining the elements of a whirlpool galaxy to older grade 8 students.
4. Aaksah presenting his PP to students.
5. Personal Project on Zodiac Signs.

The aim of the Personal Project is to encourage and enable students to:

- ★ Participate in a sustained, self-directed inquiry within a global context
- ★ Generate creative new insights and develop deeper understanding through in - depth investigation
- ★ Demonstrate the skills, knowledge required to complete their Personal Project over a long period of time
- ★ Communicate effectively with supervisors and members of the public
- ★ Appreciate the process of learning and take pride in their accomplishments

Space and Solar Energy Vibes

1

2

Our maiden Grade 6 exhibition at FIS Ipoh, after gaining the IB World status. Space and solar energy was the core of the exhibition this year. They presented enthusiastically to the school community, peers and parents on their research findings and demonstrated the five essential elements of PYP – Knowledge, Concepts, Skills, Attitude and Action. Our students helped the public appreciate the natural resources and explore the mystery of space.

3

1. Students presenting among one another.
2. Look at my research findings!
3. Our space explorers.

TRIPARTITE LEARNING

To understand why Tripartite Learning is the heart and soul of the school, one should first understand the concept, on why triangles are important in our lives.

Triangles help understand all other polygons as they can be broken down into smaller triangles. They are the second simplest thing next to lines, therefore they are the simplest closed figures (arguably, circles too). One

sum of angles in a triangle in the plane always adds up to 180° , which is a critical advantage that lines don't have.

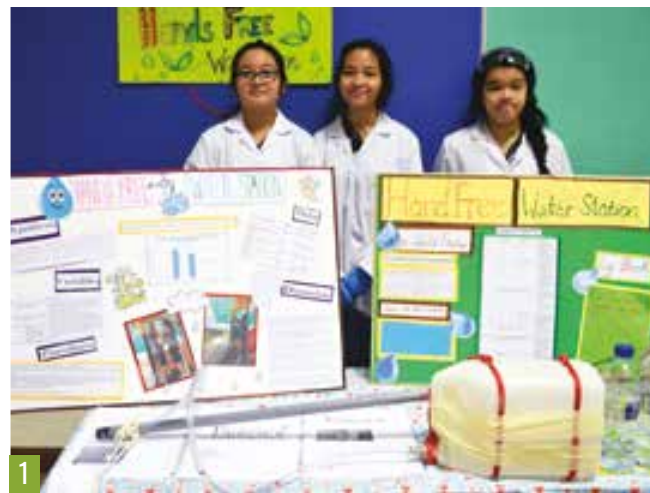

Our Tripartite Learning process involves the school, parents and students, the three main stakeholders that gives life to Fairview International School. Less said under the circumstances is perhaps best, as the articles that follow suit shall best describe what we mean.

Science Fair Celebration and Bonding

The colourful solution looked like it came from a magical tale, but it was actually a chemical reaction between one another. During the “Celebration of Science” exhibition, our Grade 7 to 9 students wore their best, gathered with joy and explored the nature of science together with their peers and supportive parents.

One of our young scientists marvelled everyone by manipulating movements. The students also let us gaze at the sun and made observers’ hair curlier just by looking at different galaxies. It was a fun way to learn, bond and certainly, a rewarding experience as our students were awarded medals and trophies.

1. Our Fairview girls presenting their science project.
2. Grade 9 students explaining their science project to a teacher.
3. The ongoing Science Fair at MPH 4.
4. Student’s booth showcasing the product they created through their science experiment.

1

1. A mother helping out her child.
2. Parents taking charge of the stalls during the carnival.
3. A bonding session between father and son.
4. Parent and teacher collaborating as emcees during the UN Day carnival.

2

Teamwork Makes the Dream Work

3

Education has always been a three-way street. It means that our students, teachers and parents will need to work together in order to achieve the best outcome for the student. Tripartite relationship boils down to having all three parties interact with each other. Communication is always the solution to alleviate confusion and frustration between everyone involved. At Fairview International School, we fully

emphasise on the participation of parents and teachers to help students achieve success, even in non-academic matters. For instance, parents at our Fairview Penang campus encouraged to join school activities such as the Carnival Day, Sports Day, and the parent-student classroom activities. This ensures our student will be able to excel in both academics and co-curricular activities.

4

Not All Heroes Fly

1

At the end of May, Fun Run event was held featuring superheroes as the main theme of the day. The five kilometer race saw participations by students, parents, teachers, staff members as well as other community members in the state. Performances and health-awareness activities helped make the event a fun-filled, memorable experience for both Fairview and non-Fairview participants. However, the most important purpose of the event was to provide assistance to Care Haven, a Johor based charity home.

2

We are indeed superheroes in our own special way. Though everyone ended up bringing home a certificate and some goodies, what matter the most was that while having fun, we managed to give back to society. All it took was by taking one little step at a time.

3

4

5

6

7

1. Parents are busy preparing their children for the run.
2. This is how we do it!
3. Supermom joining the run.
4. We are almost there!
5. Our fun Japanese family, The Fujitas, with their uniformed costumes. I am sure they have brought their "Pen and Apple" along.
6. We are the champions, my friend!
7. We've spotted another Supermom during the run.

Forged Links

1

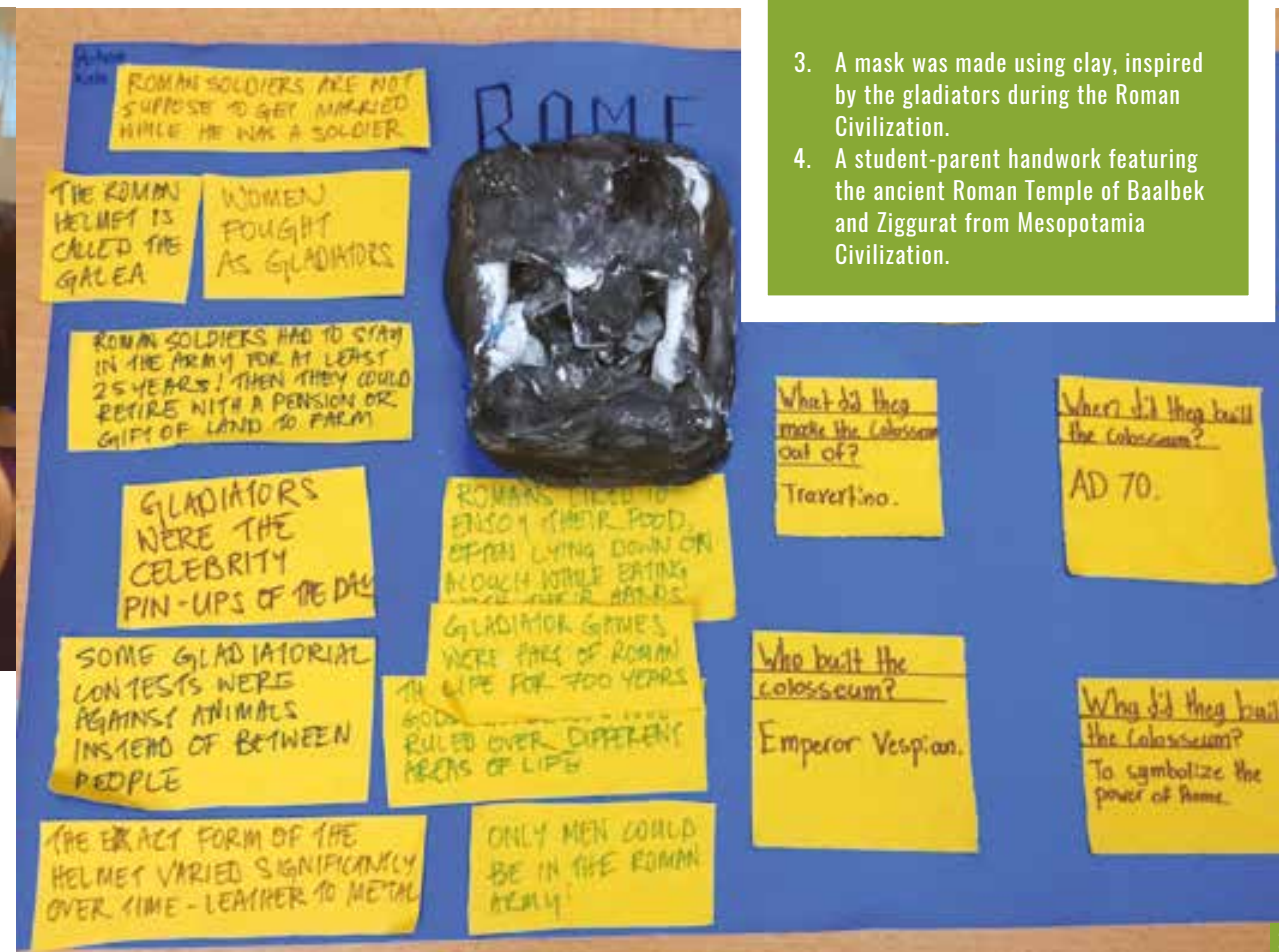

Tripartite activities were held to forge a link between teachers, students, and parents. They sat together to reach to common ground. Our students shared their ideas with their teachers and their parents. One of these sessions were held at the Grade 6 classrooms on the 16th of February this year. Each of the students were assigned individually to focus on one particular civilisation.

2

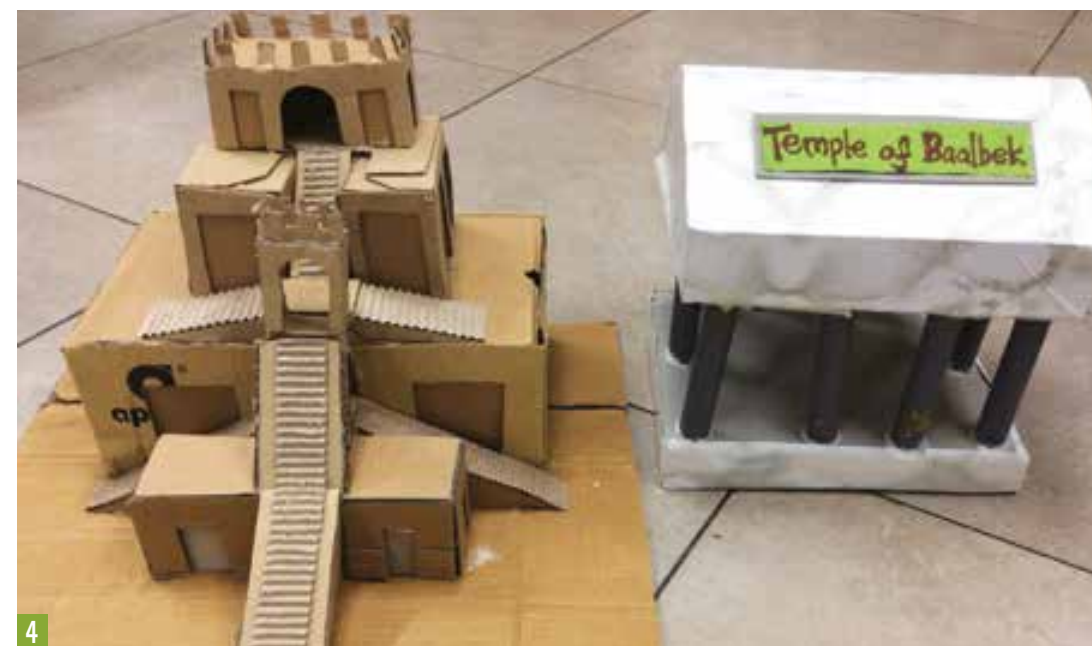

They were encouraged either to create a model to represent or to create something based on their topic. The students wrote a reflection about what they learned from past civilisations. Meanwhile, parents felt that this was a good opportunity to bond with their children, as well as to reflect on their previous childhood learning experience.

1. Parent-student worked collaboratively in completing the a task about ancient civilization.
2. Student's name was crafted on clay made from flour, salt and water. The letters were inspired from the Mesopotamian Era.

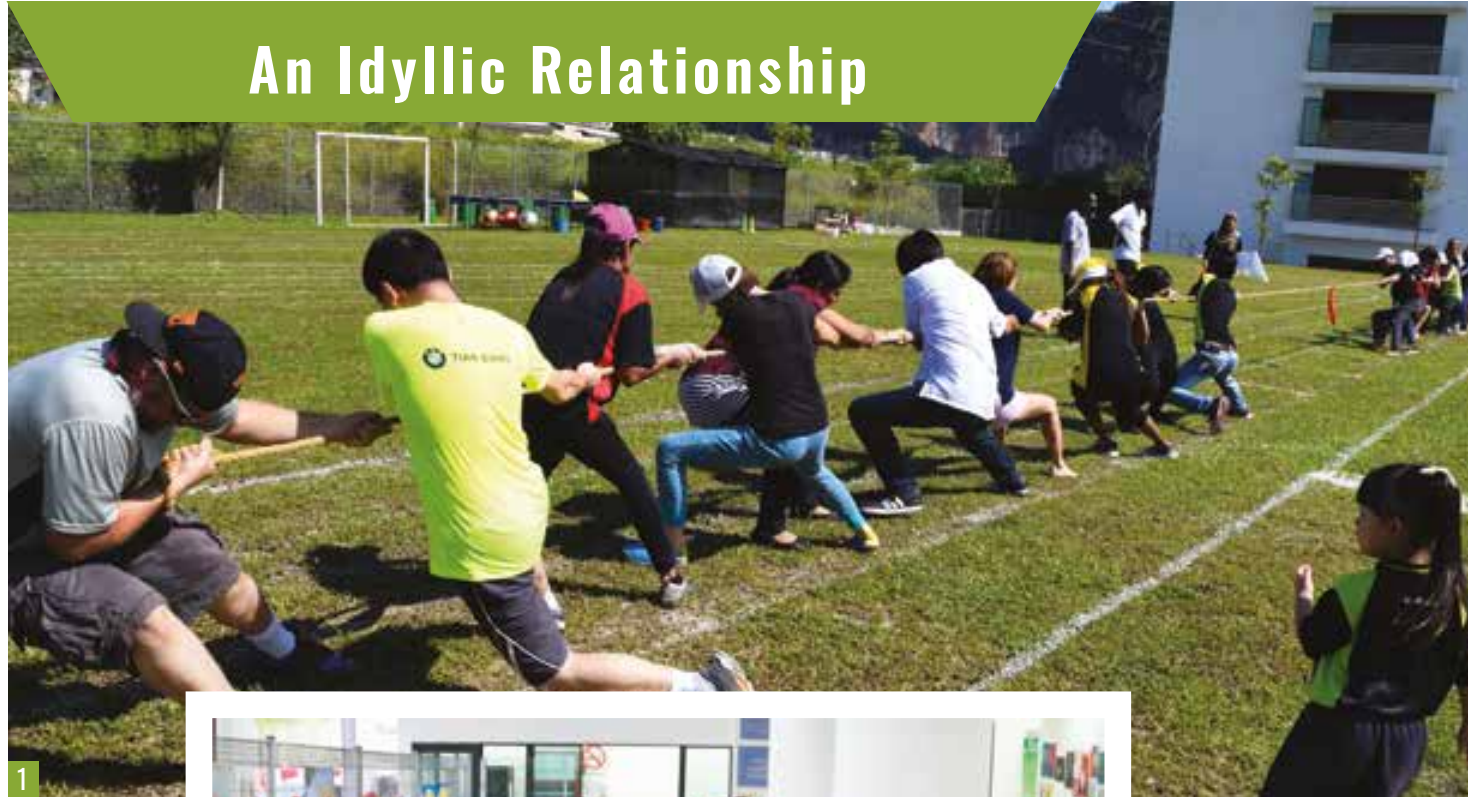

3

3. A mask was made using clay, inspired by the gladiators during the Roman Civilization.
4. A student-parent handwork featuring the ancient Roman Temple of Baalbek and Ziggurat from Mesopotamia Civilization.

4

An Idyllic Relationship

1

2

1. We can make it together!
2. Tripartite event during the mid-autumn festival.
3. Exchanging ideas and views.
4. Parents at awe with Chinese Calligraphy.
5. A mother looking at her son's work.
6. A parent doing her calligraphy during Chinese New Year.

3

4

Parents are actively involved in class projects and cultural events such as the Celebration of Learning, Student Exhibitions, Sports Day and Parents Forum. The tripartite relationship among students, parents and teachers make for a fruitful exchange of ideas and views.

5

6

PORT DICKSON EDUCATION RESORT

This is no Jurassic Park, but there are plenty of activities taking place at Malaysia's one and only education resort dedicated to the students of Fairview International School. Located in Port Dickson, a coastal town and famous for its tourism and yacht clubs, the education resort is where our students go to learn about camping, to experiment on what they have learned in the classroom in a controlled outdoor environment.

The Port Dickson Education Resort is also the meeting point for the Fairview family. Students from our five campuses gathered at Port Dickson to get to know one and another as well as play and learn together with their new friends.

This is where friendships are made, and memories are cherished.

4 Days of Fun Retreat

During the first day of camp, our students were immediately briefed on the basic rules at the camp and later on they were divided into different platoons to gain the opportunity to mingle around with other students from different classes and campuses.

ATL skills and Inquiry lessons were held within the indoors of the camp. However, since our students and teachers had made a long trip to an outdoor retreat

it's natural for them to spend more time outdoors flying their kites, participating in marching and obstacles racing.

During the third and final night of the camping retreat, our students were asked to present their learnings, which were displayed in forms of singing, acting, dancing and even reporting. The entire camp trip ended leaving yet another good memory to our students and teachers.

1. Actual Obstacle Race with other platoons.
2. Warm-up indoor.
3. Students presenting what they have learned during the camp using Mind Maps.
4. Obstacle course trial race for them to have a feel of the track.
5. Developing social skills through platoon activities.
6. Rise and shine! Morning exercise with platoon leaders.
7. Crafting- Putting our motor skills to test.
8. Hands on is minds on! Fish net weaving activity.

The Glorious Adventure

The ancient Greek philosopher Aristotle once said “In all things of nature there is something of the marvellous”. With that in mind, our EduResort in Port Dickson aims to show that true understanding of the workings of the world derives being involved in outdoor related activities. Though stepping out from the comfort of an indoor setting may be daunting for most students, the experience that they had will be valueable for them. Our students will be able to achieve more than what they believed by going out from their comfort zones. In return, their sense of accomplishment adds more depth to their existing experiences.

At our Edu Resort, our Grade 4 to Grade 11 students had the opportunity to enhance their social, personal and emotional development.

From Johor to PD

1

4

Our students travelled all the way to Port Dickson for an opportunity to explore and experience life in a Malaysian camp setting. Built by the sea alongside the shores of Port Dickson, this camp site serves as a chance for them to be independent and polishing their 'team player' skills. Students learned their syllabus in a different environment by

going through team building activities, outdoor sports and obstacle courses. Students were also given the chance to mingle with their Fairview counterparts from different campuses. All in all, the camp was successful in promoting a holistic learning experience to our students for them to achieve all of their required IB Learner Profiles.

2

1. Students proudly posing with their group's logo.
2. Giving the monkey bar a shot.
3. Easy there, boys.
4. Just another obstacle, no problem.
5. This is how you do it!
6. Panda inspires us.
7. Our balancing skills are awesome!

3

5

6

7

Learning Beyond the Classroom

1

Fairview is the first school in Malaysia with a dedicated, purpose – built campus for annual camping trips to encourage a different kind of learning. It has been up and running for the past year and our Grade 4 to Grade 10 students from our campus get excited for their upcoming camp. Apart from thoroughly enjoying their experience, students benefit from a deeper exploration of the ATL models outside of the classroom as they have the opportunity to develop independence and also leadership skills.

3

2

4

Outdoor Learning at Its Best

5

6

7

Our education resort is designed for students from Grade 4 to Grade 11 to support their need for outdoor learning. Various facilities are available, such as multi-purpose rooms for indoor activities and learning, boarding and outdoor sites that includes obstacle facility for skill-building activities. Students' safety are assured as the site is installed with CCTV cameras.

The purpose of this camp is to provide an enjoyable, exciting experience that motivates our students to approach life with courage and confidence. The core aspect of the programme includes classroom teaching, outdoor learning activities and the development of life skills through the delivery of the ATL models. Each programme offers an incremental progression of competency-appropriate experiences to students across the curricula, target to develop confidence in the student's physical abilities and emotional resilience to withstand any kind of situations.

1. Morning Meditation.
2. Students creating their team flag.
3. Students preparing to serve dinner.
4. Dig in.
5. One of their ATL sessions.
6. Our young performers in action.
7. Class in session.

MUSIC

Music makes people come together, and at Fairview our musical training helps develop language and reasoning, as well as being a confidence booster for our children. Being the only school in the world outside the United Kingdom to have the privilege to offer the Associated Board of the Royal School of Music 'Music Medals' curricular, should give a one

good indicator on how capable our students are on tackling new challenges.

With confidence, comes self-esteem, alongside better memorisation, increased hand to eye coordination, team work and discipline. At Fairview, music is more than just a subject. It is the dots that connect the lines, a life changing element in our students.

Music; a Universal Language

Life without music would be dull and we'll lack one extra way of developing our minds. By cultivating music into the lives of students, they will be able to learn the importance of art from day one. From there, they will be able to appreciate other things in life such as culture and even a different language too.

At our Kuala Lumpur campus, our

music classes comprises of conceptual and instrumental classes. The conceptual classes teach our students to value and appreciate music as a form of art. Instrumental classes, on the other hand, give an opportunity to our students to develop their music skill by hands on practice with a musical instrument of their choice.

1. A solo violinist during Celebration of Learning.
2. A boy showing his skills on the flute.
3. The string quartet performance during the event.

4. Our young ones playing trumpet.
5. A boy trying out a new instrument.
6. We have a violinist in the making.

The Sound of Music

Thanks to Fairview Penang's music programme, students who took part in the school's Honours Day had fun performing an orchestra. Our school had the opportunity to offer the programme in 2016, which allow students ranging from reception classes to Grade 11 to dabble in music. The students will have a choice of playing unique instruments such as the cello, trombone, trumpet and many more. One of the perks of studying music includes strengthening the development of the left side of the brain which helps with one's ability to process language. Furthermore, being exposed to plenty of music rehearsals, picking up a new song and being in harmonious with other players had improved our students' discipline and co-operative skills.

Music beyond Borders

1. Primary students are playing the flute.
2. The brass students are practising their repertoire.
3. The Orchestra for Honours Day.
4. Violin lesson in the music room with Yong Min Xiang as the lead.
5. Another Lower PYP student with her skill in playing flute. Talented indeed.
6. Tan Shi Ni showing her flute skill.

As a school that endorses wholesome education, it is compulsory for our PYP and MYP students to learn music. Upon enrolling in Fairview, our students will firstly be assessed on their music skills. They will also be given the privilege to pick a music instrument of their liking.

Fairview has been chosen as the first overseas institution outside of the UK to offer the Music Medal assessment run by the Associated Board of the Royal Schools of Music (ABRSM). Music Medals assess students who play in groups and solo. It also assesses their overall skills as a musician.

Orchestrating New Heights in Music

The music programme in Fairview took a gigantic step forward. We are proud to announce that we are the only educational organisation outside of the UK to offer the ABRSM 'Music Medals' assessment. This encompasses all major orchestral instrumental groups (Strings, Brass and Woodwind).

This year saw an increase in music activities such as student performances. It was very well received.

These activities cumulated in our performance on Honour's Day where our orchestra, pop band and choirs performed together for the very first time. The performance was met with a standing ovation. This has encouraged us to be bold and courageous to forge new heights in our learning and teaching of the music curriculum at Fairview.

1. Mainplace Shopping Mall Performance.
2. Honours Day Performance.
3. Christmas School Performance.
4. ABRSM Performance.

Music

Music in our Ipoh campus is a combination of conceptual and instrumental classes. Conceptual classes help students to appreciate music from a theoretical point of view while instrumental classes allow students to have a hands-on experience to pick up the skills in playing the keyboard.

5. Using cones as percussion during 'circle time'.
6. Learning how to play a keyboard solo piece.
7. Learning how to compose using keyboard.
8. Preparing a short play using percussion.
9. Matching the definition for Italian musical terms.

MANDARIN

Take a sneak peek into the world's oldest civilisation by learning Mandarin. Mandarin is the second language taught at Fairview. The language allows our children to learn about the world's oldest culture from a speaker's perspective. Such a narrative leads to how China has transformed itself into the largest economy in the

world, all from the eyes of a native and non-native speaker of the language.

Learning a second language provides an option for students and extra opportunities as they grow into adults, ready to enter the workforce.

Enhancing Mandarin Fluency

The importance of learning Mandarin in today's world is something that is fully understood by us at FIS. Therefore, Mandarin learning in our school integrates the skill areas of reading, writing, listening, speaking and comprehension, with concomitant objectives to be achieved and assessments for testing language acquisition.

In keeping up with FIS beliefs and IB philosophy in line with each other, the school provides various language enhancing activities throughout the school year. One of them is by encouraging parents to participate in their child's learning activities. In relation to their child's development in Mandarin, the parents are always invited to our

annual Chinese cultural celebration such as the Mooncake Festival and Chinese New Year. We believe these events would help everyone bridge the cultural gap, understand their Chinese counterparts better, and create a platform of knowledge and understanding that is crucial for effective communication.

1. Orange eating competition.
2. Go, go, go!
3. Students attempt on the game.
4. Ms Alicia explaining to students before starting the competition.
5. More competition organized by Mandarin teachers.
6. Student balancing chopsticks while running.

Importance of Mandarin

It has been claimed that “Those who do not speak Mandarin are not ready for the 21st century”. Though it is a bold statement, we can’t deny that Mandarin is one of the most important languages out there, especially when employers and companies have started establishing business ties with China.

To ensure that our students are always one step ahead, Mandarin is a compulsory subject for all students in the Early Years, Primary Years, and the Middle Years programme. PYP students will now also have their three periods Chinese classes bumped up to six periods per week.

Lessons aside, students in Fairview Penang are also exposed to fun Chinese cultural activities such as observing the Lunar New Year and being involved in competitions such as the Chinese storytelling and Xianqi (traditional Chinese chess). To allow our students to fully immerse in the culture, expeditions in different areas of China such as Beijing, Xi’an and Wuhan were also made possible for them.

1. Cultural activity-MYP students were painting Beijing Opera Masks.
2. MYP Expedition: Students' calligraphy works.
3. MYP Expedition: Look at the result!
4. PYP students' performance for Chinese New Year in 2017.
5. Reception students were expressing wishes for Chinese Year.

Picking up Mandarin at School

Just because it is known to be one of the toughest languages in the world, it doesn't mean that Mandarin is impossible to be mastered! To ensure that our students in PYP and MYP are having a great time picking up the language, our teachers implemented a variety of fun methods to ensure that the basics of the language are all covered. This, of course, involves the vocabulary, grammar structure, and the pronunciation of words or letters.

To enable our students to be more proficient in Mandarin, they will not just be restricted to individual tasks. Collaborative type of tasks which requires one to work in pairs or as a group is also included in the syllabus.

1. Everyone is a communicator, sharing their ideas for the benefits of the group.
2. Students collaborate to come up with a Habitat Mind Map.
3. We are courageous!
4. Students presenting about the roles of teachers and students in school.
5. Phase 1 students were observing and learning about the elements of nature in Mandarin.
6. Reception students used cubes to create Mandarin characters.
7. MYP students learned about paper cutting for windows decoration.
8. PYP students singing Chinese song during Chinese New Year celebration.

Let's Learn Mandarin

On 8th February 2017, the annual Chinese New Year celebration was held in our campus at Fairview Subang Jaya. All our students participated actively in this event, where Chinese songs and dance were performed. Parents and guardians

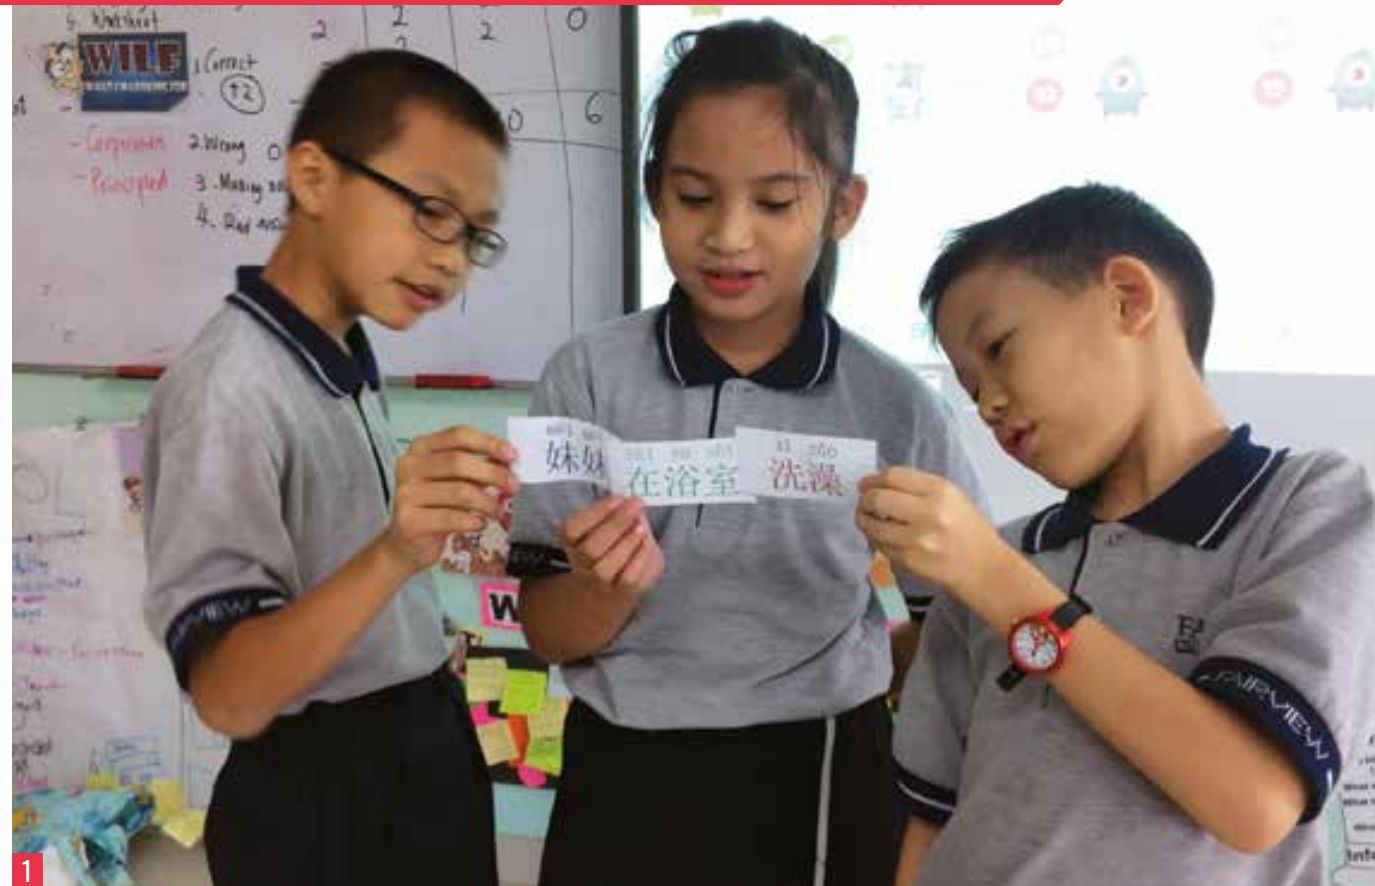

joined hands in a mask painting competition. The success of this event showed the achievement of FIS in promoting international-mindedness among students. FIS has been offering Mandarin as a compulsory subject. There are three phases

offered for PYP students and five phases for MYP students. Students will be allocated into different phases based on their capabilities in the four strands, namely reading, writing, listening and speaking as well as viewing and presenting.

Widely Spoken Language in the World

Knowledge of more than one language enriches personal development. It helps to facilitate international-mindedness. Mandarin is one of the most widely spoken languages in the world. The increasing impact of Mandarin worldwide has become hard to stop. Therefore, to prepare our students to face the challenges of the 21st century, Mandarin is a second language in Fairview and a compulsory subject for all students.

There are three strands in learning Mandarin: a) oral language – listening and speaking; b) visual language – viewing and presenting, and c) written language – reading and writing. To address the diversity of our students' language requirements, these strands have been organised into five developmental phases with each phase building upon and complementing the previous one. Besides, in Fairview, learning Mandarin is more than learning a language. It enables the students to explore an ancient culture of the world and learn Mandarin in various inquiry-based activities.

1

4

1. Let us guess... arrange the words and let's build a sentence.
2. Hands-on activities to stimulate critical thinking.
3. Learning Mandarin through technology.
4. Oral presentation: student created a map by using taught vocabularies and presented them in Mandarin.
5. Preparing role play by using sentences created by other groups.
6. Choong Shi Min (Grade 4) is having a good time learning Mandarin.

ROW 1 (L TO R): Mark Chuah, Heng Chia Thien, Emily Chan, **Ms Cindy Tham**, **Ms Nornadia Zainal Abidin**, Ava Tan, On Xin Yi, Cheok Keeshia
ROW 2 (L TO R): Lim Shang Yuan, Sim Xuen Cheng, Ryan Jeffrey Zucal, Marvin Tan, Adam Faiz, Quek Chia Seng, Wai Yan Tun, Goh Kai Wen, Wu Pei Yi

GRADE 10Y

ROW 1 (L TO R): Chua Shinyi, Tan Yu Yan (Yvonne), **Ms Seema Noman Khokhar**, **Ms Thanalachmy Subramaniam**, Thet Htar Swe, Lahvanyaa Sruthie A/P Rajandra Prasad

ROW 2 (L TO R): Timothy Wei Lun Lim, Kam Jun Kit, Choo Peng Cherng Kenneth, Jason Tan Wye-Ki, Angela Heng Ling Tan, Faizaan Rabib Islam, Chin Hung Jiet, Eric Tan Zhen Pang

GRADE 11Y

ROW 1 (L TO R): Pan Chen Soon (Alvin), Jocelyn Tan Xi Yue, Tan Chin Ning, Tay Ro Wyn, **Ms Vicky**, Ling Xiao Ru, Ku Hannah Izzati Ku Mohd Haris, Lim Hui Yen, Goo Shan Shan

ROW 2 (L TO R): Sm Sartaj Shafi, Yap Zhe Wei, Brandon, Aakash Imran Bahrin, Clement Tan Heng Guang, Chua Ming Jiann, Lim Fung Jeung, Lee Minn Chenn, Ching Teck Lek (Darren), Ng Ji Yeh, Cher Yong Min

GRADE 11G

ROW 1 (L TO R): Ethan Hoe Tzong Shuen, Goo Xuan Xuan, Lim Huee Lee, **Ms Rizmie**, **Ms Eilidh**, Tasheeni Vikaneshwaran, Proin Kaur Sen Gupta, Jessi Tharishinee Nair

ROW 2 (L TO R): Lee Lin Jun, Rahul Vaghasia, Lee Minn Yue, Toh Wern Liang (Marcus), Teh Chung Yen (Daniel), Duxton Lim Yee Cheng, Ruhan Shanmugam, Tee Hong Joo, How Ka Shing

STUDENT COUNCIL

ROW 1 (L TO R): Maureece, Ashley Chin, **Ms Rizmie**, **Ms Mary Ann**, **Ms Jessita**, **Ms Eilidh**, **Ms Komathi**, **Ms Jean**, Megan

ROW 2 (L TO R): On Xin Yi, Heng Zeng Lerk, Sue Jinn, Sue Vyenn, Lim Ee Vi, Zhang Mei Tong, Kenneth, Chyi Ling, Mark Chua, Sean On, Heidi Tan, Metha Dhiyalaxmy Nagalingam, Carolina, Muhammad Fikri, Raunith, Ryan Kee, Hou Ren, Da Wei, Rayyan

ACADEMIC

ROW 1 (L TO R): Ms Aida Mohawiah Binti Mohamed, Ms Leong Wen Xin, Ms Evelyne Ng Sweet Wei, Ms Chin Choon Pei, Ms Bavani A/P Nandakumal, Ms Nooraisyikin Binti Abdul Rashid
ROW 2 (L TO R): Ms Chang Ming Ru, Ms Rabinder Kaur A/P Phajan Singh, Ms Sarah A/P Devadas, Mr Nathaniel Enock A/L D. Selladuri, Ms Natalya Krassilnikova, Mr Kavinthira Kelvin A/L Ramachanderan, Ms Yashene A/P Suppiah, Ms Ma Wella Legaspi, Ms Chin Sook Fui, Ms Gloria Shereena A/P Krishna Kumar
ROW 3 (L TO R): Ms Myla Tia Princena, Ms Amanina Binti Ahmad Najlan, Mr Sandeep Singh A/L Dilip Singh, Mr Edemar Salgado Domincil, Ms Cheah Kah Mun, Ms Kan Poh Yi

ADMINISTRATIVE

ROW 1 (L TO R): Ms Kalaivani A/P Chalaparam, Ms Michele Lum Sue Mei, Ms Sagaya Pouline A/P S. Palasundram
ROW 2 (L TO R): Ms Hemasree A/P Balakrishnan, Ms Kho Yan Yee, Mr Balraj Singh A/L Sarjet Singh, Mr Terence Ng Kim Mun, Ms Nooraisyikin Binti Abdul Rashid, Ms Aida Mohawiah Binti Mohamed

OPERATIONS

ROW 1 (L TO R): Mr Asnan, Mr Aji Nurohman, Mr Dedi Kuswanto
ROW 2 (L TO R): Mr Terence Ng Kim Mun, Ms Michele Lum Sue Mei, Ms Sagaya Pouline A/P S. Palasundram

RECEPTION

ROW 1 (L TO R): **Ms Evelyne**, Lau Jia Hwui, Nathaniel Akbarshah Ng, Li Li Teng, Li Zi Teng, Madeline Helaina Lenz, P'ng Shao Jin, **Ms Aisyikin**
ROW 2 (L TO R): Yang Siran, Afna Bibi, Ye Entong, Austin Rai, Tan Yi Rou, Lee Ying Liang
ABSENTEE: Adam Jadayras A/L Johnson

GRADE 1

ROW 1 (L TO R): Amanda Zahra, Wang Yi Xuan, Tomitaro Oshima, Avryl Doh Ai Qi, Oscar Lee Jun Seng
ROW 2 (L TO R): Lee Xin En, Ng How Li, Nur Hazziq Iman, Hansikaa Valentiya, **Ms Rabinder**, Pon Kah Po, Jasvinthan A/L Jiwa, Loke Yit Han, Kaelyn Jozy
ABSENTEES: Baek Siun, Ashadina Kirana

GRADE 2

ROW 1 (L TO R): Danica Doh En Qi, P'ng Shao Jet, **Ms Wella**, Bonnie Tan Yan Ru, Mohini Aktar Dipa
ROW 2 (L TO R): Krystal Chai Xin Yi, Tan Lok Lim, Affenne Manur Binti Aftab Hussain Khan, Ma Ji Yang, Grewal Prathampreet Singh, Lim Hong Bin

GRADE 4

ROW 1 (L TO R): Tia Clarissa Liew Jia-Yi, Kelan Chai, **Ms Amanina**, **Mr Sandeep**, Louis Looi Yong Xuan, Su Zi Qian
ROW 2 (L TO R): Liang Yu-Chi, Lee Yan Lin, Ho Zhong Yin, Anson Lee Li Shen, Teng Yizhen, Choong Shi Min
ROW 3 (L TO R): Chinatsu Oshima, Yeong Sze Qi, Lee Yu Sen, Lau V-Shane, Roy Khaw Lian Zheng, Ooi Ju Di

GRADE 3

ROW 1 (L TO R): Gabrielle Tan Wei Che, Wong Meng Feng, Chisaki Oshima, **Mr Edemar**, Tan Jun Yan, Ng Yu Tong, Wong Khée Xiang
ROW 2 (L TO R): Tang Ru Syuen, Wong Yi Tao, Alya Farzana, Kang Yi Cheng, Chung Jia Bao, Ivan Wong Hoe Keat, Daanya Alycia Johnson, Arshia Simone Jaryal

GRADE 5

ROW 1 (L TO R): Loke Kin Wah, Li Shi Qing, **Ms Sarah**, Wong Yi Jing, Goh Zhang Yi
ROW 2 (L TO R): Leah Kirtana Deepz, Cheong Ee Syuen, Tang Hao Yi, Lee Cai Tong

GRADE 6
ROW 1 (L TO R): Rohny Teh Zhi Xin, **Ms Gloria**, **Ms Leeann**, Isabel Chin Kay Yee
ROW 2 (L TO R): Wong Yi Mun, Lee Juin, Jackson Thomas Lenz, Tan Kah Kheng, Chew Teng Sheng, Leong Min Ting

GRADE 8
ROW 1 (L TO R): Ooi An Zi, Park Sin Yee, **Ms Ming Ru**, Wong Pei Ming
ROW 2 (L TO R): Kendrick Joshant, Hor Jean Chen, Loke Chee Wai, Ng Yong Jian

GRADE 7
ROW 1 (L TO R): Liew Zhen Nam, Sarah Yong Kar Yan, **Ms Yashene Suppiah**, Wong Pei Qi, Phang You Kit
ROW 2 (L TO R): Eva Lee Xin Jie, Nicole Chung Yi Yen, Siow Yong Fung, Pon St Hooo, Teo Ann Jie, Ong Wei Wern Andre
ROW 3 (L TO R): Smith Yeoh Hou Yin, Ho Kae Janh, Christian Woo, Lau Wei Earn, Christian Antonio Kislinger, Angus Moo Siew Hang

GRADE 9
ROW 1 (L TO R): Park Kew Fung, Liew Zi Wei, **Mr Paulo**, Adeline Chang, Iwana Qistina, Ng Er Zhe
ROW 2 (L TO R): Lee Kok Chung, Howard Ng, Nicholas Poon, Chai Foo Seng

GRADE 10

ROW 1 (L TO R): Alice Chang Pei En, Janesse Alexandra Johnson, **Mr Nathaniel**, Hor Qin Yue, Agnes Moo Seen Yee
ROW 2 (L TO R): Loke Yan Hin, Moses Jefri Leong Hee, Isaac Chin Kay Shek, Cheah Yong Sheng

STUDENT COUNCIL (PYP)

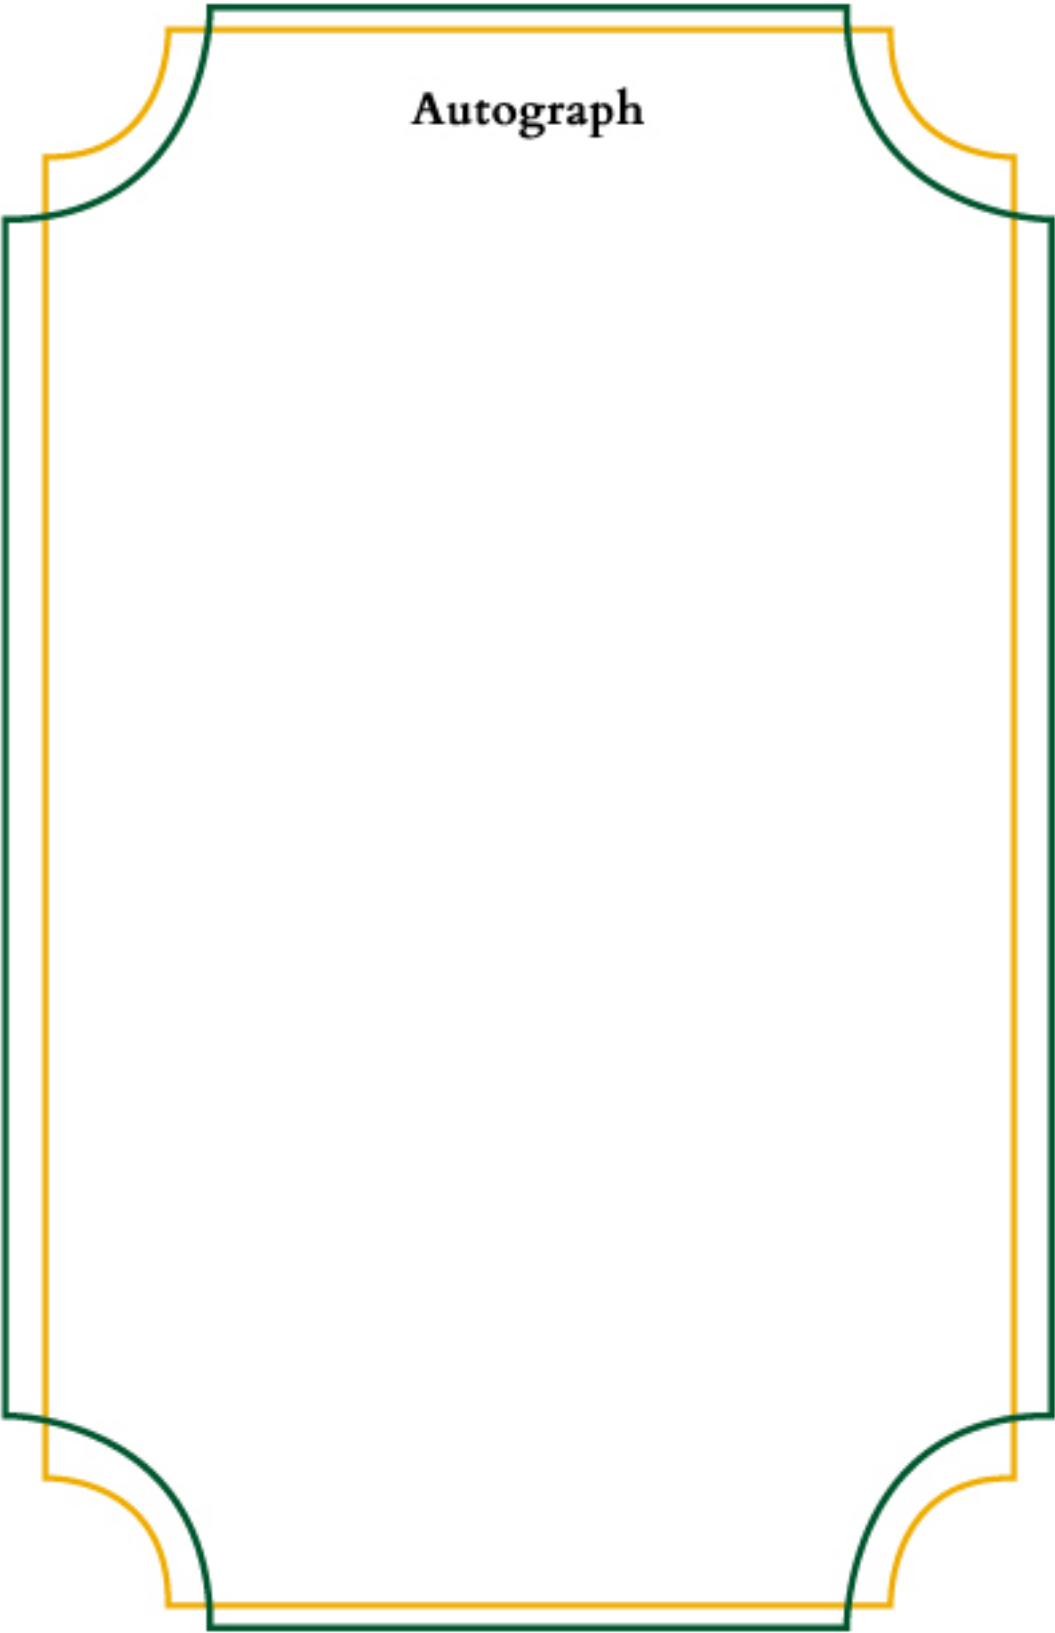

ROW 1 (L TO R): Tan Jun Yan, Teng Yizhen, Chisaki Oshima, Ng Yu Tong
